

for I believe the people of California are people above politics and would never let a good man down.

I have one brother living there and a Democrat, but if I learn he fails to vote for this Republican I know I will go to California.

If I could get to go I would sure use Harry Truman's motto.

"Give them Hell boys, give them Hell."

And now for dictator government which we have all been taught to hate, but we cannot do so no more for we now have it and seem to like it. As I understand the subject one man rule is a Dictator Government. So we have it. Why not like it?

The Government hates the south. Why, because they try to live by the Constitution? Something we do not have anymore.

We hate the Klu Klux Klan. Why because they are the only secret organization that believes in the Constitution, everyone having equal rights and obeying all laws.

So the Government accuses them of every and all the misdoings that come along.

Going to, and are investigating the entire organization. Force them to display all their records so the public can know all about them. I know of nothing about any secret organization and do not want to.

And as I see it the Klu Klux Klan is the greatest of them all. They do try to uphold the law. Even to trying to rid the country of the Communist. Who else does this. But for sure one good thing is they cannot do it, for if they did there would not be enough of us left to plant one good garden.

The only difference in all is the name. All is the best they know and if the people do not like it they have a rebellion.

As for our own Government we have been due a rebellion for a number of years. And I do not see how it can continue much longer.

As I understand history the U.S.A. has lasted longer than any Government in history, under the same rule.
